The nature of ARCA Advanced Processing, LLC's (AAP) operations is processing domestic appliances in a manner that consistently reduces negative impacts to the environment with a long term vision of "Zero Landfill Appliance Recycling". AAP's overall goal is to accomplish its business objectives while striving for an injury-free workplace, minimizing pollution, and providing quality products and services to our customers.

It is our intention to:

- Develop and maintain quality, environmental, and health & safety programs that conform to the best practices within the scrap recycling industry.
- Comply with all relevant environmental, health & safety laws and regulations, including federal, state, and local and other requirements.
- Comply with customer requirements, product requirements, and industry guidelines.
- Prevent workplace injuries by providing a safe environment for employees, contractors, and visitors in our fixed yard and remote operations.
- Investigate any workplace accidents, illnesses, near-misses, and promptly correct any unsafe condition or practice.
- Promote prevention of pollution in all of our operations;
- Work with our suppliers, customers, and contractors to fulfill our environmental, health & safety goals.
- Foster a corporate culture that encourages employee participation in continual improvement of our quality, environmental, and health & safety programs and resulting performance.

We recognize that the responsibilities for quality, environment, health & safety (QEHS) are shared. This requires cooperation between employees, supervisors and all those who assume the various roles within the company.

ARCA Advanced Processing, LLC will continually improve its QEHS system and performance. This includes setting QEHS goals, taking into consideration our QEHS footprint and our business, financial, operational, and legal requirements as well as the views of interested parties.
